

Smoke-Free Ontario Act: Hospitals and Hospital Properties

The *Smoke-Free Ontario Act* prohibits smoking tobacco in all enclosed workplaces and public places, to protect workers and the public from the hazards of second-hand smoke. This includes public and private hospitals and psychiatric facilities.

Under the Act:

- Smoking is prohibited inside all public and private hospitals
- Smoking is prohibited on the outdoor grounds and within a nine metre radius surrounding any entrance or exit of a hospital
- Sale of tobacco is prohibited within hospitals

The grounds of all hospitals in Ontario must be completely smoke-free by January 1, 2018.

Please help us be a smoke-free facility by refraining from smoking on Women's College Hospital property.
