Providing feedback about your experience at Women’s College Hospital

Women’s College Hospital staff, physicians, volunteers and learners are committed to providing quality patient care. We welcome feedback about what we are doing well and how we can improve the care and services that we provide.

We want to respond to patient, caregiver and visitor concerns effectively, at the earliest possible opportunity. If you have a concern or suggestion for improvement, we encourage you to try resolving the issue by speaking directly with the members of the healthcare team who are providing your care and treatment. You may also ask for the manager of the area in which your concern arose. Managers are responsible for daily operations and would be pleased to try to assist you.

We understand that some issues and situations are hard to talk about, especially when strong feelings are involved. If you are unable to resolve your concern with the members of the healthcare team or manager, please contact Patient Relations for assistance.
