The Horn of Africa region has been hit by the worst drought in 60 years. More than 11 million people in Ethiopia, Kenya, Somalia and the newly formed Republic of South Sudan are in urgent need of food, water and emergency healthcare.

[Canada Refugee Week](#) in partnership with [Women's College Hospital](#) presents documentary screening of **When the Rain Fails** - a documentary about poverty in Ethiopia, where drought and climate change make people struggle for survival – followed by a panel discussion with community leaders and critical thinkers. The goal is to raise funds and increase public awareness on the plight of the drought stricken people in East Africa and the complexity of the issues.

Panel Speakers Include:

- **Dickson Eyoh** - Professor, Political Science and African Studies, University of Toronto
- **Grace-Edward Galabuzi** - Professor, Department of Politics and Public Administration, Ryerson University
- **Fadumo Mohamed** - Executive Director, Labour Community Services of Toronto and York Region Labour Council

Moderated by: Debbie Douglas, Executive Director, Ontario Council of Agencies Serving Immigrants
