

Maxay dhalinyarada da'doodu tahay 12-17 u heli karaan oo keliya tallaalka Pfizer COVID-19 hadda?

Tallaallada cusub iyo daawooyinka waxaa badanaa lagu tijaabiyaa ama lagu baaraa dad badan oo waayeel ah ka hor intaan carruurta lagu baran.

Pfizer hadda waxay wax ku baartay ama ku tijaabisay talaalkooda dadka da'da yar ee jira 12 iyo wixii ka sareeya waxayna ogaadeen in talaalku yahay mid aad wax ku ool u leh kana difaacaya dhalinyarada ka hortaga cudurka COVID-19 (kadib 2 talaal qaadasho). Waxyeellada ama dareenada caadiga ah waxay sidoo kale la mid yihiin kuwa dadka waaweyn ay la kulmaan.

Khubarada cilmiga sayniska iyo caafimaadka ee Health Canada ayaa dib u eegis ku sameynaya natiijooyinka isticmaalka talaalka Moderna COVID-19 ee dhalinyarada da'doodu udhaxeeyso 12 ilaa 17 iyo talaalka Moderna waxayna u badan tahay inay dhawaan heli doonaan kooxdan da'daas ah sidoo kale.
